

Cleaning instructions

FABRIX

Our Fabrixx collection is produced with the utmost care for quality. The Fabrixx collection is permanently flame retardant, normal abrasion resistance and high lightfastness.

Our Fabrixx collection has been tested by an independent institute in order to meet the requirements in the contract market.

Useful information

- Fabrixx will retain its beautiful colour and features better by vacuuming regularly
- Always remove the spot as quickly as possible – before it penetrates into the fibres
- Most types of spots can be removed with lukewarm water, possibly with a pH-neutral dishwashing detergent
- Avoid soaking as this can damage the material under the fabric
- Never rub hard to remove a spot
- Always use a clean white cotton cloth with only small amounts of detergent at a time
- N.B.! Benzene/Acetone and similar can dissolve foam on soaking. Be careful with naked flames. Hazardous when inhaled. Follow the guidelines from the supplier of the product

Cleaning

- First absorb as much of the liquid as possible with a plain white kitchen paper towelling or cloth
- If the spot has dried, remove as much as possible by vacuuming
- Press a dry tea towel or a piece of plain white kitchen roll against the fabric each time liquid is added so that moisture and impurities are absorbed
- Use pure water without soap for the last washing

Guide to spots

Ballpoint pen and cosmetics

Clean with methylated spirit.

Blood

Wash off with cold water. If this does not help, add a neutral detergent.

Candle wax

Iron over absorbent paper (be careful that the polyester doesn't melt at excessive temperature).

Clean with turpentine. Dab with lukewarm water containing a neutral detergent. Alternative: see chewing gum.

Chewing gum

Cool with ice blocks in a plastic bag or frozen item. Scrape away. Any remaining gum can be carefully removed with benzene.

Cleaning instructions

Chocolate, grease and sweets

Wash with lukewarm water containing a neutral detergent.

Coffee, tea and milk

Remove as much as possible with blotting paper. Wash with water containing a neutral detergent.

Grass and vegetables

Wash with lukewarm water, possibly containing a neutral detergent.

Ink

Remove as much as possible with blotting paper. Clean with 20% methylated spirit. Then wash with water containing a neutral detergent.

Jam, Syrup, fruit and juice

Remove as much as possible with a spoon, then wash with lukewarm water containing a neutral detergent.

Nail polish

Dab with nail polish remover. Use acetone if the spot does not disappear.

Oil

Sprinkle talcum on the spot and allow it to work. Brush it away and carefully dab with a cloth moistened with benzene or methylated spirit.

Paint

Oil-based: clean with turpentine and dab with water containing a neutral detergent.

Water-based: Wash with cold water containing a neutral detergent.

Shoe Polish

Carefully dab with a cloth moistened with benzene or methylated spirit.

Urine

One-part colourless vinegar mixed with two parts of water. Use a dry cloth as an underlay when the spot is soaked. Remove the diluted vinegar with alternate dry and wet cloths.

Wine and spirits

Remove as much as possible with blotting paper.

Wash with water containing a neutral detergent and clean with thinned methylated spirit.

If you have questions regarding our Fabrixx collection our Oniro team is ready for giving presentations, sending samples and answering all your questions.

We are happy to share our knowledge and experience.
