## NIROXX

Our Niroxx collection is produced with the utmost care for quality. The Niroxx collection is permanently flame retardant, 100% waterproof and has a very high abrasion resistance and lightfastness.

Our collection has been tested by an independent institute in order to meet the highest requirements in the contract market.

## Useful information

- Niroxx is a 100% waterproof product. Use the right way to upholstery and no moisture will enter the furniture
- Niroxx will retain its beautiful colour and features better by vacuuming regularly
- Niroxx stays clean longer by wiping occasionally with a warm cloth, especially the parts that contacts the body
- Never clean Niroxx with solvents

## Cleaning

- By light pollution cleaning with lukewarm water is usually sufficient.
- Apply Nirocleaner or other alkaline detergent diluted on a cloth or sponge and wipe the surface, leave the detergent a few minutes on the Niroxx before wiping of for a better result.
- Always use enough water!
- Use a brush to remove stubborn dirt when needed
- Clean the entire surface in order to prevent circles.
- Always end with clean water to remove soap residues, detergent residue ensures faster pollution
- After cleaning use an absorbing towel to remove most of the water from the Niroxx
- Give it time to dry

If you have questions regarding the Niroxx collection the Oniro team is ready to give presentations, sending samples and answering all your questions.

We are happy to share our knowledge and experience.
