

Cleaning instructions

PUxx

Our PUxx collection is produced with the utmost care for quality. The PUxx collection is permanently flame retardant, 100% waterproof, has a very high abrasion resistance and lightfastness.

Our collection has been tested by an independent institute in order to meet the highest requirements in the contract market.

Useful information

- Removing a spot as quickly as possible, makes it easier to clean
- PUxx is a 100% waterproof product. Use the right way to upholstery and no moisture will enter the furniture
- PUxx will retain its beautiful colour by wiping occasionally with a warm cloth, especially the parts that contacts the body
- PUxx can be easily cleaned and disinfected by almost any type of detergent such as ethanol (alcohol), hydrogen peroxide and chlorine solutions. Follow the instructions of the manufacturer of the disinfectant
- Never clean PUxx with solvents

Cleaning

- By light pollution cleaning with lukewarm water is usually sufficient
- Apply Nirocleaner or other alkaline detergent diluted on a cloth or sponge and wipe the surface
- leave the detergent a few minutes on the PUxx before wiping of for a better result
- Always use enough water!
- Use a brush on the dirt when needed
- Always end with clean water to remove soap residues, detergent residue ensures faster pollution
- After cleaning use an absorbing towel to remove most of the water from the PUxx

If you are interested in the PUxx collection the Oniro team is ready to give a presentation, sending samples and answering all your questions.

We are happy to share our knowledge and experience.
