

# Cleaning instructions

---

## Vixx

Our **Vixx** collection is produced with the utmost care for quality. The **Vixx** collection is permanently flame retardant, 100% waterproof, has a very high abrasion resistance and lightfastness.

Our collection has been tested by an independent institute in order to meet the highest requirements in the contract market.

## Useful information

- Removing a spot as quickly as possible, makes it easier to clean
- **Vixx** is a 100% waterproof product. Use the right way to upholstery and no moisture will enter the furniture
- **Vixx** will retain its beautiful colour by wiping occasionally with a warm cloth, especially the parts that contacts the body
- **Vixx** can be easily cleaned with Nirocleaner or other alkaline detergent
- Disinfect preferable with chlorine solutions (to 1000 ppm). Follow the instructions of the manufacturer of the disinfectant
- Do not clean with alcohol disinfectans. This may cause dehydration and cracking of the product in the long term
- Blood, urine and defecation resistance  
(\* by use of heavy medication, defecation can possibly leave a stain)

## Cleaning

- By light pollution cleaning with lukewarm water is usually sufficient
- Apply Nirocleaner or other alkaline detergent diluted on a cloth or sponge and wipe the surface leave the detergent a few minutes on the **Vixx** before wiping of for a better result
- Always use enough water!
- Use a brush on the dirt when needed
- Always end with clean water to remove soap residues, detergent residue ensures faster pollution
- After cleaning use an absorbing towel to remove most of the water from the **Vixx**

If you are interested in the **Vixx** collection the Oniro team is ready to give a presentation, sending samples and answering all your questions.

We are happy to share our knowledge and experience.
